Warning

Warning

PCS No.: 05764

Batch number and expiry date: See bottle shoulder.

For use only as a plant growth regulator. Specific uses: Fruit thinning and pre-harvest fruit drop control in apples. Pre-harvest fruit drop control in pears. See directions for use table.

Directions for use:

Crop	Max single dose	Max. no. of applications	Max. total dose	Latest time of application
Apples (fruit thinning)	0.24 l/ha	1	0.24 l/ha	Fruit size up to 10mm (GS 71)
Apples and pears (Pre-harvest fruit drop control)	0.24 l/ha	2	0.48 l/ha	7 days before harvest (GS 87)

Method of application: Apples: Tractor mounted/trailed sprayer.

Crop specific information: The product is a fruit thinner in apple trees. The application must be carried out after flowering, when all petals have fallen off (BBCH 69) and until stage 71, corresponding to the average fruit diameter up to 10 mm and king fruits reaching 12 mm. Dose rate: 0.24 l/ha.

The product is also an apple and pear pre-harvest fruit drop controller. The applications 1, or 2 with an interval of 7 days, are carried out from BBCH 81 (beginning of fruit ripening) to BBCH 87 (picking maturity).

To fit the waiting period, the last treatment must be carried out not later than 7 days before the harvest. Total dose rate: 0.48 l/ha.

Directions for the safe disposal of the plant protection product and of the packaging.

Dispose of contents/container to a licensed hazardous waste disposal contractor or collection site except for triple rinsed empty containers which can be disposed of as non-hazardous waste.
